- Discuss with anil whether the Import need first two requirements fields,
1. Code and name in same column in excel file :
A checkbox Code and name in same column
Give same column no: for both code and name and if the check box is ticked then an entry box: Split character.
Add tooltip to the fields.
 2. If the code is not auto generated and no code in excel file then a check box, No code-- if the check box is ticked then an entry box: code character
add title to the fields.
 3. The default action type should be: Remove all and insert.
