ISSUE FIXED

1. Can't access some modules while log in as a user (Change in menu service).

Change: disable 'paid cheque should be in cheque book' DONE

NEW CHANGE

1. Add a new field besides phone as whatsapp no:

#53 - 01/24/2025 11:46 AM - Arathy PS

ISSUE FIXED

1. While giving certain privileges to a user you have to update it multiple time during the first time for it to function properly.

Example

-
- 1.Created a user-- in the general privileges didn't allow old refund and saved it-- tried a refund--validation happens
 - 2.Then changed the privilege to allow refund--but while trying to make a refund without sale there is still the previous validation.
 - 3.Will have to do this a few times repeatedly to make it work properly.
2. Same issue is found while trying auto revoke, manual revoke privileges for a user.

NEW CHANGE DONE

-
1. After default department add default cost centre.-- it should be loading in Own data--> own settings--while logged in as the user
